

I listen to K-LOVE everyday on 91.9FM. I think the local community benefits greatly by having a positive radio station encouraging Christian living. I don't know of any other station in this area that does that. It's always good for the community when people are encouraged to become altruistic, K-LOVE constantly teaches giving and kindness, and a positive attitude. How could the community not benefit from something so necessary to a growing and prosperous community?
